

2011 CONSTRUCTION PROJECT LIST

March 2011

1. **Road Resurfacing Program:** Various roads throughout the county will be resurfaced. Approximately 26 miles of County Roads. Construction cost = \$1,500,000. Construction to start in summer of 2011. Out for bid in April.
2. **2010 Guardrail Program (Various Twps):** Approximately 15 miles of new guardrail will be installed at designated locations along larger culverts and areas where unsafe conditions have been identified. This project is currently under final design and final locations will be established. Construction cost estimate is \$1,300,000. A portion of this project (\$300,000) will be publicly bid in April/May of 2011.
3. **2010 Sign Upgrade Program (Various Twps):** We have received a grant in the amount of \$50,000 to upgrade all of our deficient road signs to meet current "High Intensity" reflective material. This material purchase will be publicly bid in April/May of 2011.
4. **Bridge Program (Various Twps):** We are replacing 6 load restricted bridges throughout the county. The plans are currently being designed with projects to begin in the summer of 2011. The total cost estimate is \$1,700,000.00.

Taylor Pike, Bridge No. C121-1.61, Wayne Township
Taylor Pike, Bridge No. C121-1.72, Wayne Township
Roudebush Road, Bridge No. T199-0.84, Wayne Township
Loveland Miami Road, Bridge No. C75-1.02, Miami Township
Old US 52 Bridge No. C303-0.29, Pierce Township
Berry Road, Bridge No. T62-0.94, Monroe Township

5. **Landslide Program (Various Twps):** We are repairing 8 landslides totaling \$1,600,000.00. Geotechnical work is currently being completed and construction is planned to begin in the summer of 2011.

Cole Road Landslide Repair, Pierce Township
Jenny Lind Road Landslide Repair, Pierce Township
Hopper Hill Road Landslide Repair, Pierce Township
Nine Mile Tobasco Road Landslide Repair, Pierce Township
Laurel Point Isabel Road Landslide Repair, Washington Township
Wagner Road Landslide Repair, Pierce Township
Barger Road Landslide Repair, Washington Township
Clermontville Laurel Landslide Repair,

6. **James E. Sauls Sr. Drive and Baldwin Road Rehabilitation:** Both of these roads will be reconstructed using Full Depth Pavement Reclamation. Improvements to drainage and other associated features will also be performed. These projects total \$1,120,000. Design is currently under way and construction/bidding is anticipated in the fall of 2011.
7. **SR 28 Sidewalks:** New sidewalks will be added from McDonalds Entrance drive to Branch Hill Guinea Pike. Sidewalks will primarily be added to both sides of SR 28, with the exception of several areas on one side. This project has already been publicly bid and Prus Construction will begin work in March 2011. Construction cost is \$190,000.
8. **Cole Road Widening Project (Pierce Twp):** This project will improve 2000 feet of roadway, increasing road width from 14 feet to 22 feet. Retaining walls and various drainage improvements will also be made. Construction is estimated at \$300,000. Bidding to begin in summer of 2011.
9. **Shayler at Glen Este-Withamsville (Union Twp):** The intersection of Shayler Road and Glen Este-Withamsville Road will be realigned and include a traffic signal installation. Concrete Curb and storm sewers will also be added from SR 125 to just north of Shayler Road. Construction cost = \$900,000. Project is currently in the Right of Way phase and construction expected in summer/fall of 2012. CCEO is accepting RFQ's for Right of Way acquisition (submission deadline is February 24th, 2011).

Transportation Improvement District Projects for 2011

10. **Business 28 Improvements:** This project will include a new 5 lane roadway to Cinema Drive and continue with a 3 lane roadway to Cook Road. Improvements include reconstruction of the existing roadway, concrete curbs, drainage improvements, driveway/access management, new traffic signals and lighting, sidewalks and other associated improvements. Construction cost is estimated at \$6,350,000. Public bidding will begin in March/April of 2011.
11. **Wolfpen Pleasant Hill Improvements:** This project will include a new 3 lane roadway from SR 131 to Allen Drive. Improvements include reconstruction of the existing roadway, concrete curbs, drainage improvements, new traffic signals, profile adjustments, sidewalks and other associated improvements. Construction cost is estimated at \$4,000,000. Public bidding will begin in April/May of 2011.
12. **SR 28 and Castleberry Improvements:** This project will include improvements from Castleberry Road to McClelland Road, concrete curbs, drainage improvements, new traffic signals, sidewalks and other associated improvements. Construction cost is estimated at \$2,000,000. Public bidding will begin in April/May of 2011 and will be administered through ODOT.

****All of the above schedules are dependent on property acquisition, funding availability and other factors that may affect construction schedules.**

TOTAL CONSTRUCTION COSTS FOR 2011: \$21,010,000.00
